

— Compliance and safety manager for Svenskt Ambulansflyg

Kommunalförbundet Svenskt Ambulansflyg (KSA), is looking for an experienced Compliance and Safety Manager.

About KSA

Kommunalförbundet Svenskt Ambulansflyg (KSA) is a national organization formed, mutually owned and financed by all 21 regions in Sweden. The purpose of KSA is to increase patient services and safety by making air ambulance more effective through coordination and coordinated use of common resources. KSA is currently establishing an AOC for the purpose of operating a fleet of six PC-24 air ambulance aircraft for the Swedish regions. The aircraft will be based at the AEMS bases being established at Umeå (ESNU), Stockholm/Arlanda (ESSA) and Gothenburg/Landvetter (ESGG) airport together with flight crew, medical- and maintenance staff.

The planned start of operations is 2021.

Job description

As a compliance and safety manager you will be the unique focal point as regards the development, administration and maintenance of KSA:s safety and compliance monitoring management system. You will be expected to support, facilitate and lead the implementation and maintenance of the safety and compliance monitoring management system. You will foster an organizational culture for an effective safety management, risk management and occurrence reporting and ensure that the activities of the KSA are monitored for compliance with the applicable regulatory requirements, and any additional requirements as established by KSA, and that these activities are carried out properly under the supervision of the relevant manager of functional area.

As the safety and compliance monitoring manager you will be responsible for ensuring that the safety and compliance monitoring programme is properly implemented, maintained and continually reviewed and improved.

You will report directly to the Accountable manager.

Qualifications

- Hold or have previously held a Safety manager and/or Compliance monitoring manager position in a CAT organization
- As a minimum three years' experience from compliance and safety management position in a CAT organization
- Comprehensive knowledge and understanding of safety management.

- Thorough knowledge of (applicable parts of) regulations (EC Reg.1321/2014, 965/2012, 1178/2011 etc).
- Excellent English language skills (both verbal and written)
- Fluent in a Scandinavian language
- Advanced skills in MS Office application
- Experience from safety and compliance audits.

Additional skills

You enjoy working in teams as well as independently towards deadlines. You are a problem solver and you make things happen. The KSA team is small and we work closely together, especially during the start-up phase of the project. We will put a lot of weight into your interpersonal skills and how we feel you will fit into our team.

Previous experience from working in an air ambulance organization is desirable.
